**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My local independent internet service provider will be destroyed if the FCC allows the big monopoly telecom companies to raise rates and charge whatever they please to put local service providers out of business and in competition with them. Unlike ATT and Comcast and all the rest of the "biggies", my service provider answers the phone, fixes things, is local and can be visited if need be. I get NO ads NO "fake news" in my email service. You are destroying the access to the world for millions of rural, and moderate income Americans with this fee increase for our services. You are adding to the American divide of haves and have-nots, reducing the opportunities for students who need the internet for their school work, for workers and all others who depend on reliable and INEXPENSIVE local internet service. I urge you to reconsider your opinions and support of the monopoly of internet communications.
